

Ghost In the Feeling

I try to call you, you text me
Don't fool that for a conversation
There's no feeling, I can't hear your breathing
There's no sign of frustration
So you shake shake shake
Until it's coming up worms
Plants think it's an earthquake
Poisoning their roots with her fingertips
Dead pedals in the wind

She knew, ya she knew
All along

I started thinking I'm sorry
Ghost in the feeling
Bad luck when it comes to redemption
Can I get it back
Can I get a ya
Too late doesn't have any meaning
So you shake shake shake
Until it's coming up worms
Plants know it's an earthquake
Still poisoning their roots with her fingertips
Dead pedals in the wind

She knew, ya she knew
All along

It's rough but you gotta move on
Be cool operator
Who knew?

Tough when the sun is turned off
You do it ... ya you do it
Be new
New
